

Firmware: Blaze Audio PowerZone™ series

Introducing the latest firmware update for the Blaze Audio PowerZone™ series of amplifiers!

With this update, you can expect minor bug fixes that enhance the functionality and stability of our Blaze Audio PowerZone™ series.

We recommend that all users upgrade to the latest firmware. To identify the steps required to update the firmware, please read the “Read Me” file (.pdf) included in the downloaded firmware .zip file.

We ask for your patience during the firmware update process, and advise against interrupting the update, as it can take up to three minutes to complete

Thank you for choosing **Blaze Audio**.
