

# PowerZone™ Connect

Introducing our brand-new PowerZone™ Connect 8-channel 1U Class-D power amplifiers. Now globally available in 500 W and 1000 W configurations, they feature 10 input channels, flexible power distribution across their 8 output channels, a built-in full matrix DSP controller, hybrid power distribution in both Lo-Z and Hi-Z, and countless other benefits for your next project.

- Power sharing distribution in Lo-Z and Hi-Z
- 8 Euroblock balanced inputs
- 8 RCA phono unbalanced inputs
- 8 configurable loudspeaker outputs
- S/PDIF digital audio I/O
- Pascal UMAC™ Class-D technology
- Configurable GPIO
- Built-in DSP configuration
