

BLAZE

The high-power passive subwoofer, BL18S completes the CBL series from Blaze Audio and is specifically crafted to integrate seamlessly with the CBL523 and CBL528 Constant Beamwidth Loudspeakers, providing a complete full-range audio system that enhances sound quality and performance for small to medium-sized venues that require scalable and versatile low-frequency solutions.

Designed primarily for free-standing installations, the BL18S features an 18-inch bass driver housed in a reflex-loaded enclosure, delivering low-frequency bandwidth down to 31Hz at -10dB, with maximum sound pressure levels reaching 136dB at 1m. Multiple BL18S subwoofers can be installed in stacked pairs and configured via amplifier presets to deliver either omnidirectional or cardioid directivity characteristics, ensuring exceptional sound distribution.

For added convenience, the subwoofer comes equipped with optional casters that can be fitted to the rear panel, facilitating easy handling and installation in hybrid venues.
