

BLAZE

Copenhagen, June 01, 2022

Blaze Audio extends their PowerZone Connect range of DSP amplifiers with four new power options - giving system installers up to 3000W of reliable power, with the same familiar connectivity at their fingertips.

The newly released DSP amplifiers are part of the successful PowerZone Connect series – and now deliver up to 3000W total system power, offer multiple channel and power options, integrated audio DSP and super easy configuration. These models are a perfect match to bring superior sound to even bigger spaces.

The new PowerZone Connect series, the 1002, 1502, 2004 & 3004 models, firstly deliver outstanding power amplification, but also offer many power and channel configurations since they drive **both** conventional low impedance and constant voltage (70V/100V) loudspeaker loads - making it the perfect choice for the most demanding install solutions.

These solid, full rack, 2U amplifiers delivers flexible, reliable power amplification with total system power of 1000W, 1500W, 2000W and 3000W. Four new models are available already - with both 2 and 4 channel versions.

Find out more and view the full technical specification at blaze-audio.com.

Model	PowerZone Connect 1002	PowerZone Connect 1502	PowerZone Connect 2004	PowerZone Connect 3004
Channels	2 x Lo-Z/1 x Hi-Z	2 x Lo-Z/1 x Hi-Z	4 x Lo-Z/2 x Hi-Z	4 x Lo-Z/2 x Hi-Z
Output Power @ 2Ω	2 x 500 W (SE)*	2 x 750 W (SE)	4 x 500 W (SE)	4 x 750 W (SE)
Output Power @ 4Ω	2 x 500 W (SE) 1 x 1000 W (BTL)**	2 x 750 W (SE) 1 x 1500 W (BTL)	4 x 500 W (SE) 2 x 1000 W (BTL)	4 x 750 W (SE) 2 x 1500 W (BTL)
Output Power @ 8Ω	2 x 250 W (SE) 1 x 1000 W (BTL)	2 x 400 W (SE) 1 x 1500 W (BTL)	4 x 250 W (SE) 2 x 1000 W (BTL)	4 x 400 W (SE) 2 x 1500 W (BTL)
Output Power @ 70V	1 x 1000 W (BTL)	1 x 1200 W (BTL)	2 x 1000 W (BTL)	2 x 1200 W (BTL)
Output Power @ 100V	1 x 1000 W (BTL)	1 x 1500 W (BTL)	2 x 1000 W (BTL)	2 x 1500 W (BTL)
Total System Power	1000 W	1500 W	2000 W	3000 W

*SE - conventional, single ended output mode

**BTL - bridge-tied load output mode

More Power, Still Connected

All PowerZone Connect models have software-controlled DSP, routing, and easy to configure sound zones. All set up in minutes with the PowerZone Control web app. Simply connect through any browser to the amplifier's built-in Wi-Fi, or directly via the network port. Then configure everything from your phone, tablet, or laptop.

PowerZone Control makes life simple thanks to its intuitive interface – a main dashboard shows the overview of your system, with volume adjustment levels for each sound zone you create. Look further to gain access to the advanced configuration and professional install settings.

Explore a variety of tuning options - including easy to install speaker EQ's, where you can import an approved library, or one you've created for a specific location. Update firmware, copy and back-up your amp profile, or use it on another project – or integrate the amp with smart room controllers via Blaze 3rd party drivers.

Blaze brings high quality, reliable, power amplifiers and easy to use solutions to the market - enabling System Designers, Integrators, and Installers to create impressive multi-zone sound systems.

Blaze – The Power Behind Great Sound
